

More Showings for Your Home.

Scheduling Made Easy!

What is CSS Scheduler?

CSS Scheduler makes it easy for Buyer's Agents to request showings for your home. *Increased showings lead to a faster sale!*

Agents save time and reduce the amount of calls necessary to request showings by using the CSS Scheduler, powered by Showings.com. This professional set of online tools for the real estate industry is dedicated to scheduling showings for your home.

Sellers can approve showing requests by:

- Text Message
- Email
- InstaCall
- Showings.com
- CSS Mobile App

Benefits for you, the Seller

- More showings on your home because CSS listings are **easier to schedule**
- **Showing notifications** the way you want: email, text and InstaCall
- Enhanced **safety and security** for Agents & Sellers
- Sellers are **better informed of activity** on their listings
- **Feedback** can be received via email or viewed on Showings.com
- Sellers can view **Showing & Agent Activity Reports** on Showings.com
- Sellers can **update showing instructions**

Fast Showing Approvals

Instantly approve or decline showings on your property from a text message on your mobile phone. Reply "Yes" or "No" to the showing request.

The Right Tools

CSS Mobile App

- View current and past appointments 24/7/365
- Edit your showing instructions
- View feedback
- **CSS Mobile App** available for Android and Apple

Search for the phrase
"CSS Mobile"
